

## HUBBELL 2X2 USB Work Surface Pop-Up Box

- Simple push-down method for opening and closing
- Two 125V receptacles plus two USB charging ports
- 3 Amps of USB charging
- Minimal 5" square footprint
- Brushed aluminum or black powder coat finishes
- Pre-wired, 5' cord, NEMA 5-15P

Charging convenience at the push of a button

Hubbell has developed the UL listed 2X2 USB Work Surface Pop-Up Box. Ideal for work surfaces, such as desks, which require power for a computer and USB charging for smart devices. Developed with coordination from the hotel industry, the Hubbell Pop-Up Box utilizes a pneumatic spring for providing a smooth action for opening and closing. Available in brushed aluminum or black powder coat, the Pop-Up Box is suited for installation with any modern décor.

Two 15A, 125V receptacles and two total 3A USB ports are supplied in this one device, reducing the need for multiple receptacles and minimizing work surface intrusions.

Installation is simple and only requires a jig-saw or similar saw plus a screwdriver. The unit is supplied with a 5 foot cord with a molded plug end allowing it to be installed with ease. Designed to be installed into existing desks or by a furniture manufacture. The Hubbell 2X2 USB Work Surface Pop-Up Box is ideally suited for any work surface application.

### FEATURES
