Get more from your 4-inch core by installing a SystemOne fire rated A/V poke through (**S1PTAVFIT**) and new Active Multimedia Sub-plate (**S1SPAMM20**). This combination is ideal for use in conference rooms, presentation halls, and training rooms, as it provides power, voice/data, and flexible multimedia configurations. All SystemOne sub-plates can also be used with SystemOne floor boxes, allowing greater flexibility.

Visit our website at www.hubbell-wiring.com to see our complete offering of SystemOne sub-plates.

STANDARDS

- cULus Listed
- Exceeds UL scrub water requirements with Hubbell **ScrubShield™** technology.
- 4-hour fire rating for fire-rated poke through applications.
